BIO

Invisible Girl is an up and coming New York based original, alternative rock band. Formed in 2023 by Rosanne (vocals/guitar) and Eric (bass/vocals), the group began as the DIY acoustic duo Sad Coffeehouse, self-producing a limited release cassette tape on their label, Fine Girl Records. Martin (lead guitar) and Chris (drums) joined in 2025, and the project went electric at Blank-Fest XXIX in Nyack. Diverse influences of grunge, glitter/glam metal, left-of-the-dial college radio, and hard rock propel the band's evolving sound. A working poet, Rosanne's lyrics drive an emotional connection. Invisible Girl will release its debut album in 2027.
